Projects

TeamTask – Project Management Application July 2026 – Present
GitHub

- Developed a production-grade MERN project management platform supporting projects, tasks, teams, and activity tracking.
- Built secure JWT authentication, role-based authorization, reusable middleware, and 25+ RESTful APIs following MVC architecture, and conducted unit testing using Jest.
- Optimized query performance by 30% using MongoDB aggregation pipelines, caching, and indexing.
- Utilized MongoDB ACID transactions and centralized error handling to ensure secure and reliable operations.

Notes Application June 2026 – July 2026
GitHub Live Demo

- Built a secure MERN notes application with complete CRUD functionality.
- Implemented JWT authentication using HTTP-only cookies and protected REST APIs.
- Designed responsive React interfaces and deployed frontend and backend independently.

GameZone June 2026 – July 2026
GitHub Live Demo

- Engineered multiple browser-based games using React, JavaScript, HTML, and CSS.
- Implemented reusable React components and Hooks for efficient state management.
- Designed responsive UI with modular components following React best practices.

Education

Bachelor of Technology (Computer Science & Engineering) 2023 – 2027
Dr. A.P.J. Abdul Kalam Technical University (AKTU)

Class XII (UP Board) 2023
KD Intermediate College, Kushinagar Score: 74%

Class X (UP Board) 2021
KD Intermediate College, Kushinagar Score: 87%

Achievements

- Built multiple production-style full-stack applications with secure authentication and scalable backend architecture.
- Enhanced RESTful APIs implementing JWT authentication, Role-Based Access Control (RBAC), caching, MongoDB aggregation pipelines, and ACID transactions.
